

As numbers get bigger the children are encouraged to add together groups of numbers.

$$176 \div 8 =$$

$$10 \times 8$$

$$10 \times 8$$

$$2 \times 8$$

0

80

160

176

Children then add up how many sets of 8 they added:
(10 + 10 + 2)

Children are encouraged to make informal jottings of multiplication facts they know to help them with their calculation.

E.g. $10 \times 8 = 80$

$$20 \times 8 = 160$$

$$5 \times 8 = 40$$

$$2 \times 8 = 16$$

$$4 \times 8 = 32$$
